

Updated March 2022

BD Trademark/Brand (Alpha) List Key:

This list includes active trademarks as filed in one or more countries. If a trademark is not found on this list, please contact the [Trademark Group](#).

Unless an exception has been granted, trademarks should be followed by the trademark symbol (™) and an appropriate product descriptor. Generally, the BD Masterbrand should be applied in which the BD house mark proceeds the secondary trademark brand, followed by a noun descriptor (i.e., BD Alaris™ Infusion Pump). For any product manufactured by a BD Affiliate that has not been rebranded (such as Bard or CareFusion), consult with the BU Regulatory team before applying the BD Masterbrand on labeling, packaging and IFUs. For more information on proper trademark use, please see the [General Trademark Usage Guidelines](#). For information regarding proper use of the BD Masterbrand on labeling, packaging, IFUs and/or marketing material, please visit the [Design System](#) site on *Maxwell*.

NOTE: If a trademark is listed with and without “BD”, use the trademark without “BD” in the copyright statement/trademark byline: BD, the BD Logo and BACTEC are trademarks of Becton, Dickinson and Company or its affiliates. © 2022 BD. All rights reserved.

If the trademark is only listed with "BD", use the trademark with “BD” in the copyright statement/trademark byline: BD, the BD Logo, BACTEC and BD Onclarity are trademarks of Becton, Dickinson and Company or its affiliates. © 2022 BD. All rights reserved.

TRADEMARK NAME

3DMAX	ADVANCING THE DELIVERY OF HEALTH CARE WORLDWIDE
ACCELERODESIS	ADVANCING THE DELIVERY OF HEALTHCARE
